## Routine Food

BAJ, INC.  
BRETT'S FARMHOUSE  
7424 N 60th St  
Milwaukee, WI

**4/9/2010**

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Code Number	Description of Violation	Correct By
3-305.12 (F)	A box of mint candies and breadings were stored under waste water lines in the basement office. A leak from the pipes could result in contamination of the candies and breadings. Move all food items stored under un-shielded sewer lines to an approved location free from contamination risks.	4/23/2010
3-501.13	Frozen fish was being defrosted on the kitchen counter. Fish must be thawed in a refrigerator or in a prep sink under cold running water.	4/23/2010
3-701.11	Several dozens of eggs were found in the kitchen cooler found with an expiration date of April 8th. (Today is April 9th.) Grade A products (such as eggs, milk, or yogurt) cannot be sold after its expiration date. The eggs must be discarded and cannot be used for breakfast on Sunday.	4/23/2010
4-501.11	Several freezers in the basement had several inches of ice on their refrigeration coils and are in need of defrosting. Ice build-up reduces the efficiency of the refrigerator and forces the compressor to work harder than designed. This can lead to eventual compressor failure. Defrost all basement freezers.	4/23/2010
4-501.116	Test strips were not available to the concentration of sanitizers in the bar and in the kitchen area. Acquire test strips to test the concentration of sanitizer to ensure proper sanitization after rinsing.	4/23/2010

5-202.11

In the basement, a garden hose was connected to a faucet above the utility sink without a backflow preventer. Backflow from the hose could contaminate the cities water flow. Please install a proper backflow preventer between the faucet and the hose. Or if the hose is no longer used, discard of the hose.
